YOUR PILLOW, YOUR WAY

PLUSH

A generously plush down-alternative fill gives this pillow a soft, yielding feel that cradles the head without flattening over the night. Light and breathable, it suits guests who prefer a forgiving, sink-in rest over the structure of foam.

SILVER

Threaded with silver, this memory foam pillow keeps a naturally fresh feel, gently guarding against the odours and allergens that build up over time. A dense, high-resilience core contours to the head and neck, easing pressure and holding alignment across every sleep position.

BAMBOO

Bamboo-derived fibres give this memory foam pillow its signature cool, silky character, drawing heat away for a temperate, even sleep. Generous airflow keeps it fresh and breathable, making it a natural choice for warmer sleepers.

COPPER

Infused with copper, this memory foam pillow carries a quietly restorative quality, long associated with skin wellness and a renewed feeling come morning. Its high-density core cradles the head and neck with deep, contouring support that holds firm until you wake.

Dial our Guest Experience Team anytime from your in-room phone, and we'll deliver your pillow straight to your door. We apologize in advance if your first choice is not available.
